

You connect.  
**WE PROTECT.**

## Protect your connections.

Strong Cap's 3-in-1 kit is designed to provide long-term protection against environmental corrosion and the disconnection of ground rod connections.

- Prevents galvanic corrosion and thermal stress at the grounding connection point
- Improves power quality
- Addresses stray voltage issues
- Ensures grounding connections are safe and secure
- Safeguards your sensitive electronics

Fast and easy to install | Made in the U.S.A.

## Simple 3-in-1 kit.

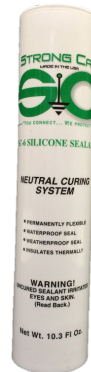

### The Clamp

- Stainless steel
- Virtually unbreakable
- Accepts 1/2-inch and 5/8-inch ground rods and #4 rebar

### The Stabilizer

- Non-conductive
- Electrically neutral
- High density
- Flexible
- Water-tight seal
- Vertically stable

### The Cap

- Non-conductive
- Heavy-duty polyethylene

## About Strong Cap, LLC

Strong Cap, LLC is the maker of the Strong Cap, a 3-in-1 product designed to provide long-term protection of ground rod connections. Strong Cap protects against exothermic weld failures, stray voltage issues, corrosion and disconnection.
